

AUTOMOTIVE FACT

The Tic Tac BMW E30 M3, run by the legendary Italian Team Bigazzi, is one of the most iconic touring cars of the early '90s. Known for its bold green-and-white livery with red accents, it wasn't just eye-catching—it backed up the look with serious performance. Team Bigazzi was a top-tier privateer outfit that competed in the DTM, ETCC, and endurance races like the 24 Hours of Spa and Nürburgring. In the 1992 Spa 24H, their Tic Tac-liveried M3 finished 3rd overall, battling against faster, factory-backed teams. Lightweight, high-revving, and razor sharp, the E30 M3 under Bigazzi became a motorsport icon—and that livery is now one of the most replicated in car culture.
